ProTechTrader

3-MONTH GIFT · PREPAID · NEVER AUTO-RENEWS

OFFICIAL GIFT CERTIFICATE · MONTHLY MICROCONTROLLER PROJECT BOX

You've Been Gifted TechCrate Pro!

Three consecutive monthly electronics boxes are on the way—each with a new microcontroller board, USB cable, sensors, outputs, working code, printed build guide, and full BenchMate AI circuit help.

TO: _____ FROM: _____

PERSONAL NOTE: _____

Box 1: Smart FM Radio
Wire a Raspberry Pi Pico H to an Si4703 FM tuner, 16×2 LCD screen, amp & speaker—then customize station presets and code.

Wire It. Load Code. Make It Yours.
No prior coding required. Every box starts with working code you load over USB, then tweak to see real hardware respond.

24/7 BenchMate AI & Community
Stuck on a wire? Visit **protechtrader.com/benchmate** or **protechtrader.com/community** for guides, calculators & photo help.
